**Subject:** Hunters Pt background - Annual EPA/NRC meeting re: Rad Cleanup under CERCLA at Military sites in Region 9; July 22 9:00am Rm 809  
**Attachments:** NRC\_EPA meeting agenda 2013.doc; NRC brief\_Hunters Pt July 22-2014.doc; NRC brief\_20August2013.doc; Draft BCT RAD Update\_July 2014.pdf; Investigation of Anomalous Soil Samples at HPNS Exec Sum.pdf

Dear John and Rachel,

I'm sorry I will miss this meeting. To give you background information, I have attached the following:

- 1 – Brief memo giving overview/update, styled after Craig's model from last year's NRC mtg
- 2 – Last year's memo for reference
- 3 – Rad update ppt from 7/2/2014 BCT mtg
- 4 – Executive Summary of Tetra Tech internal investigation of anomalous soil samples

NRC will do an inspection, and the Navy will do a presentation. NRC is also meeting separately with DTSC. (I was incorrect when I thought they were meeting with DTSC and EPA together) I've asked Hamide at the Navy to give me any summary she produces.

This is what I could pull together quickly. Please let me know any other suggestions you have for how I can help prepare you for this meeting.

- Lily

**Subject:** REMINDER: Annual EPA/ NRC meeting re: Rad Cleanup under CERCLA at Military sites in Region 9; July 22 9:00am Rm 809

This is a reminder that we'll be meeting with NRC for our annual discussion of EPA oversight activities regarding radiation at Hunters Pt, Alameda, and McClellan next Tuesday at 9am in Rm 809. See last year's agenda for the types of things we discussed. We'll follow the same basic format. Each site should be prepared to discuss any significant rad oversight activities last year and any looking ahead. We'll also briefly discuss Treasure Island. If Loren is there, David probably doesn't need to come. I'll leave that up to you.

Richard Chang has taken over from Robert Johnson, who retired. But then I learned today that Robert is back with NRC on a part-time retiree basis.

John

**Subject:** Agenda for our Annual EPA/ NRC meeting; Radiological Cleanup under CERCLA at Military sites in Region 9;  
August 20th, 2pm - Room 812

Everyone - Attached is the Agenda for our annual meeting with NRC. The meeting is next week Tuesday, August 20<sup>th</sup>, 2pm in Room 812. Let me know if you have any questions on how to prepare for this meeting. After we discuss our CERCLA sites, the NRC reps plan to give an update on our meetings with DoD/services on radium jurisdiction.

See you there !  
Craig

**Subject:** Annual EPA/ NRC meeting regarding military sites in Region 9; August 20th, 2pm ????

Howdy ! Well, it appears that it is time for another annual meeting with the NRC concerning the status of our radiological investigation and remediation programs at military bases on the NPL in Region IX. See email below from Robert Johnson (NRC) suggesting that we meet in SF on August 20<sup>th</sup>. I have emailed Mr. Johnson back suggesting that we have meeting at 2pm, August 20<sup>th</sup>, right here in R9 Offices. I believe last year, we each provided the NRC reps with a quick status briefing of our Rad programs and then answered any questions. I think Rob Terry also asked about the status of a couple policy/regulatory issues.

Please let me know, if you can make a meeting on August 20<sup>th</sup> from 2pm to about 4pm at R9 offices. I will take care of getting a meeting room for us (I will try for Room 812). I will also distribute an agenda once I get it from NRC (but I assume it will look like last year's Agenda).

Thanks,  
Craig

**Subject:** Potential annual meeting with NRC regarding military sites

Craig and Bob,

As you recall, both NRC and the military had limited travel funds and could not conduct our annual site visits and meetings with the military, EPA, and State agencies. We have some funding now and have scheduled our site visits and meetings with the Navy and Air Force during the week of August 19th. Following our usual pattern, we have our Hunters Point meeting and tour scheduled for Tuesday August 20, either am or pm. I wanted to see if EPA could be available to meet with us for 1-2 hrs as we have previously done either in the morning or afternoon. Typically, we meet with the Navy in the morning, and EPA in the afternoon, but we can switch around to meet your schedule if necessary. Please let me know what works for you and then I can schedule both you and Navy accordingly. This year our new deputy Director of our Division of Waste Management and Environmental Protection, Drew Persinko, will be joining us on the site visits and meetings. In addition to the usual summary of EPA activities for Hunters Point, Alameda, Treasure Island, and McClellan, we can update you on our meetings with DoD on the draft Regulatory Issue Summary (RIS) for radium jurisdiction and the MOU for NRC monitoring of DoD remediation under the CERCLA process since EPA Region 9 had provided us with comments on the draft RIS. After determining if and when you can meet with us, we can work on a simple agenda. We have found our previous meeting with EPA Region 9 very useful and look forward to the same this year. Robert
